Mobile Classroom K-2 "The River Town Story"

The Environmental Education and Outreach Mobile Classroom K-2 is a forty-minute mobile classroom that introduces kindergarten through second grade audiences to water quality stewardship through audience participation, music, and theater. This program, which is funded by the MDEQ, travels to schools and educational events located in priority watershed areas state-wide.

Mobile Classroom 3rd-5th "All the Water in the World"

The Environmental Education and Outreach Mobile Classroom 3rd-5th is a forty-minute, mobile classroom that engages third through fifth grade students in an interactive water quality unit study including the water cycle, properties of water, and the watershed specific to their community. Students learn how pollution impacts their local waterways while learning better habits to improve water quality. This program, which is funded by the MDEQ, travels to schools and educational events located in priority watershed areas state-wide.
